

Crimsafe Regular

Featuring 0.9mm mesh

The original Crimsafe security screen with incredible strength and industrial aesthetics.

Crimsafe Regular is the original security screen that revolutionised the industry over 25 years ago and offers affordable, entry-level protection for your family and home.

The combination of our Screw-Clamp™ technology and Tensile-Tuff® 304 structural-grade stainless steel mesh makes Crimsafe Regular much more than a security screen. It's a solution that offers unhindered views, fresh air, natural light and protection against solar heat gain and harmful UV rays, resulting in a more efficient home.

Proudly Australian Made, Crimsafe Regular has been specifically designed to exceed the Australian Standard. It has been rigorously tested to withstand a single impact of up to 550 Joules, providing peace of mind that your home and family are protected from unwanted intruders, insects and much more.

With a choice of powder-coated colours or timber-look frames, Crimsafe Regular can be installed on any door or window in your home and comes with the assurance of a 12-year extended warranty.

The Crimsafe Regular Profile

0.9mm mesh

Withstands up to 550 Joules of impact*

12-year extended warranty

If it's not Crimsafe, it's not crim safe.
